

NOBAFROTT®

REF 350058

Product Description, Intended use, Application

The disposable product NOBAFROTT® is an unbleached, elastic terry cloth tube with a **size of 8 cm x 5 m**. Synthetic threads are incorporated in the back area to achieve optimal elasticity. Due to the natural fibers, it is suitable for patients prone to allergies. NOBAFROTT® is used as an underlay to protect the skin and as padding for plaster and synthetic bandages. It can be individually cut to size, is easy to apply, soft, vapor- and air-permeable, adapts to the shape of the body and is therefore very comfortable to wear. The plaster or synthetic bandage can be applied directly over the terry cloth tube without additional padding material.

Composition

Cotton, elastane, polyamide

Incident reporting

According to MDR (EU) 2017/745, if serious incidents occur in relation to the device, they must be reported to the manufacturer and the competent authority of the Member State in which the user and/or patient is established.

Normative and Regulative Requirements, Common Standards
