

NOBALASTIK[®]-Hospital

REF 451312

Product Description, Intended use, Application

The white, soft medium stretch bandage is **12cm wide and 5 m long (stretched)**, with a stretchability of about $110 \pm 20 \%$. It has selvages on both sides and stitched bandage ends. Owing to its material and its weave, the bandage is elastic and is therefore suited for functional support bandages and relief bandages, or for fixation with an additional compression effect. Splints of all kinds can be fixed by means of the bandage. It exerts a supporting and compressing effect in the case of sports injuries. In surgery it is used, for instance, for thorax compression in cases of rib fractures or for the stabilization of wound bandages. In phlebology the bandage is employed, owing to its easy handling, to support treatments. The bandage is rolled up. It is for single use.

Composition

Cotton, polyamide, elastane

Contraindications

The product should not be used in the case of a known allergy against the material.

Note

After the bandage has been applied, make sure that it does not cause pressure points or constrictions, nor pain, numbness or circulatory disturbances.

Incident reporting

According to MDR (EU) 2017/745, if serious incidents occur in relation to the device, they must be reported to the manufacturer and the competent authority of the Member State in which the user and/or patient is established.

Normative and Regulative Requirements, Common Standards

Medical Device according to MDD 93/42/EEC, MDR (EU) 2017/745.

The product does not contain dangerous toxic substances according to REACH.

Packaging

Primary packaging: folding box
made of
cellulose

Secondary packaging: carton made of
cellulose

Symbols used in labelling

Explanations at www.nobamed.com

Marking on all packaging levels with CE and according to DIN EN ISO 15223-1- and DIN EN 1041.

Storage and Transport

Dry and dustfree.

Single use device

Reusing a single use medical device can lead to microbiological danger. Reprocessing for reuse can decrease the product's performance significantly.

Disposal

According to locally applicable legal regulations and standards of infection prophylaxis.
