

NOBAMED Paul Danz AG

NOBAZINCULAST®

Product Description and Purpose

The carrier fabric of the damp zinc paste bandage is a lengthwise elastic bandage. NOBAZINCULAST® is used in cases of thrombosis, varicose veins and after-treatment of fractures. Due to the cooling effect at the outset, it is also used in the case of sports injuries.

Composition

Carrier fabric made of viscose and polyamide, coated with zinc paste

Normative and Legal Requirements

NOBAZINCULAST® is a medical product in accordance with the MDD, class I, rule 1, and complies with the requirements of the directive 93/42/EEC.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and DIN EN ISO 15223-1 labels on all its packaging.

Packaging

Primary packaging: aluminium-coated foil

Secondary packaging: folding box made of cellulose

Tertiary packaging: carton made of cellulose

Storage

To be stored in a dry and dust-free environment, protected against direct sunlight, temperature must not exceed 25°C
