

NOBAMED Paul Danz AG

UNTERSUCHUNGSKITTEL

REF 628110

Product Description, Intended Use, Application

Disposable examination gown (size L) for use in medical and nursing activities, mainly in ambulances to protect against exposure to infectious agents. It is also intended to protect from a potential exposure to small quantities of spray or accidental low volume splashes of liquid chemicals.

The gown is closed in the back and is equipped with cuffs.

Composition

Polypropylene, polyethylene, polyester

Note

The product has been subjected to a validated microbial reduction process and is therefore pre-sterilized

Normative and Regulatory, Requirements, Common Standards

The gown complies with the European standards for Personal Protective Equipment in accordance with the provisions of the EU Regulation 2016/425 category III-module C2.

The gown protects against infections in accordance with EN ISO 14126:2003 + AC:2004 and protects against liquid chemical, light spray (type 6B) according to EN 13034: 2005 + A1:2009

EN ISO 13688: 2013+ A1: 2021

EN 14325: 2004

Further information can be found in the instruction for use.

The product does not contain dangerous toxic substances according to REACH.
