

KRÜLLGAZETUPFER-steril

REF 735522

Product Description and Purpose

The sterile, 2-ply darts are made of gauze (DIN EN 14079 type 20) and are used for the treatment of superficial wounds. Due to their longish shape, they are particularly suited for the application of ointments. If the darts are unfolded, they may also be used as a cover. One sterile pouch contains 5 gauze darts.

Contra-Indications

No contra-indications known. The product should not be used in case of a known allergy against the component mentioned below.

Composition

Cotton
