

NOBA[®]-HODENROLLE

REF 874500

Product Description, Intended use, Application

The testicle support bank consists of foam covered with a stockinette. It is used for the elevation of the testicles after operations or in cases of oedema. In addition the legs are spread due to the special form of the testicle support bank.

Composition

Polyurethan, polyester

Contraindications

The product should not be used in the case of a known allergy against the material.

Incident reporting

According to MDR (EU) 2017/745, if serious incidents occur in relation to the device, they must be reported to the manufacturer and the competent authority of the Member State in which the user and/or patient is established.

Normative and Legal Requirements

Medical product according to the directive MDD 93/42/EEC and the regulation MDR (EU 2017/745).

The product does not contain dangerous toxic substances according to REACH.

Packaging

Primary: PE bag

Secondary: carton made of cellulose

Symbols used in labelling

Explanations at www.nobamed.com

Marking on all packaging levels with CE and according to DIN EN ISO 15223-1 and ISO 20417.

Storage and Transport

Dry and dust free

Single use device

Reusing a single use medical device can lead to microbiological danger. Reprocessing for reuse can decrease the product's performance significantly.

Disposal

According to locally applicable legal regulations and standards of infection prophylaxis.
