

NOBACONCHIAL[®]

Product Description and Purpose

NOBACONCHIAL[®] is a sterile pouch of swabs which has been especially designed for ear bandages. It consists of a sickle-shaped punched non-woven swab NOBATOP[®], an additional unpunched swab and an absorbent pad. The punched swab is placed onto the auricle in such a way that it also covers the site behind the auricle. The second swab is used to cover the entire ear. The absorbent pad serves as padding.

Composition

Viscose, polyester, polypropylene, cellulose

Normative and Legal Requirements

NOBACONCHIAL[®] is a medical product in accordance with the MDD, class Is, rule 4, and complies with the requirements of the directive 93/42/EEC.

Sterilization of the product complies with DIN EN 11135.

The product does not contain dangerous toxic substances according to REACH. It has DIN EN ISO 15223-1 labels on all its packaging.

Packaging

Primary packaging: paper-film packaging
