

## Lemon Sticks

REF 974311

### Product Description, Intended use, Application

The lemon sticks (length: 11 cm) are used for a short time in dry mouth to stimulate the flow of saliva. They are suitable for removing light coatings on the tongue and oral mucosa.

### Composition

Cotton, water, glycerin, citric acid, lemon flavouring, sodium benzoate

### Contraindications

Known allergy to one of the ingredients listed above.

### Incident reporting

According to MDR (EU) 2017/745, if serious incidents occur in relation to the device, they must be reported to the manufacturer and the competent authority of the Member State in which the user and/or patient is established.

### Normative and Regulative Requirements, Common Standards

Medical Device according to *MDD 93/42/EEC, MDR (EU) 2017/745*.

The product does not contain dangerous toxic substances according to REACH.

### Packaging

Primary: paperbag coated with Polyethylene / aluminium

Secondary: folding box made of cellulose

Tertiary: carton made of cellulose

### Symbols used in labelling

Explanation at [www.nobamed.com](http://www.nobamed.com)

Marking on all packaging levels with CE and according to DIN EN ISO 15223-1- and DIN EN ISO 20417

### Storage and Transport

Dry and dustfree, protect from sunlight.

### Single use device

Reusing a single use medical device can lead to microbiological danger. Reprocessing for reuse can decrease the product's performance significantly.

### Disposal

According to locally applicable legal regulations and standards of infection prophylaxis.
