Wetter, September 2015

NOBA Verbandmittel Danz GmbH & Co. KG becomes NOBAMED Paul Danz AG

Underlining the high level of productivity and product versatility for the hospital market

With retroactive effect as of 1 January 2015, NOBA Verbandmittel Danz GmbH & Co. KG changed its legal form to NOBAMED Paul Danz AG, which was entered into the commercial register on 1 September 2015.

Due to the increased globalisation of the markets and the wide product assortments, which have long gone far beyond medical dressings, the shareholder families of Ruhrtaler Verbandstoff-Fabrik GmbH & Co. KG and NOBA Verbandmittel Danz GmbH & Co. KG initiated the conversion to a public company (AG).

As powerful manufacturer of medical devices with operating facilities in Wetter/ Ruhr, Herne and Witten, we are celebrating our 100 year anniversary this year. Therefore the new company name refers at the same time to Paul Danz, founder of the Ruhrtaler Verbandstoff-Fabrik in 1915.

Sebastian Danz, General Manager and founder of NOBA Verbandmittel, and Dr. Anja Annemarie Danz, MBA, form the Executive Board of NOBAMED Paul Danz AG.

Please note that this change of the legal form will have no effect on existing business relations. NOBAMED Paul Danz AG assumes all the rights and obligations of NOBA Verbandmittel Danz GmbH & Co. KG.

NOBAMED Paul Danz AG

Sebastian Danz
Chairman of the Executive Board
